

*This session will cover the following topics:*

- 1) What is research data management?*
- 2) What is FAIR data?*
- 3) What are research data management plans (DMP)?*
- 4) The H2020 Open Research Data pilot and DMP; what is expected of researchers?*
- 5) DMPonline: a useful tool to write DMPs.*

*The session will consist of short presentations and discussions sessions, where we can exchange experiences with the H2020 DMP and get some insights into how to best support researchers. We will also have some small exercises that require access to the internet, so please bring a laptop or tablet. The session will be presented in English, but discussions can be in Danish if that is preferred.*
