QUALITY IN DOCTORAL EDUCATION

Hosted by
DAVID TVILDIANI MEDICAL UNIVERSITY

ORPHEUS 2024 Conference

“Innovative Strategies and Concepts for PhD Education in Biomedicine and Health Sciences”

18 – 20 April 2024
Tbilisi, Georgia

This conference will present innovations in interdisciplinary and cross sectoral doctoral programs, emphasizing their impact on society and on training for physicians. How can ORPHEUS support those programs and what innovative approaches in teaching, learning, research and supervision can be offered in program delivery? The conference will also address how universities and/or PhD programs can respond to the EUA Agreement on Reforming Research Assessment within existing practices in Biomedicine and Health Sciences. We anticipate that the ORPHEUS conference in Georgia, will provide many opportunities for sharing your experience, expertise and ideas, thus fostering quality enhancements in Doctoral Education for the biomedical profession and society.
